☐ 4/7

☐ 1/2

☐ All of them are run by private companies

Correct!

☒ 3/5

Question 9

Not yet graded / 10 pts

What are the five benefits of Community Corrections? Use your own words...do not copy and paste what is in the article. And then, what are your thoughts about these benefits—one paragraph about your reaction to the benefits.

Your answer:

Benefits: we can be more effective and efficient without having to follow strict procedures, we can expand quickly and get a lot of workers fast, We are making good studies of what is right and wrong with studies in the justice system, we have more choices for our offenders when it comes to programs, having some privatization is better than total privatization and both side work together to advance our systems, we have developed approaches that worked better than ever before.

I think that using private systems in public prisons is way better than a total privatization of a prison, it keeps the goal in mind that we are here to help these people and not create numbers to count towards our paycheck. I think it helps us spend less taxes on the necessities and focus on what is really important like the conditions and mental health help they really need.

Question 10

Not yet graded / 4 pts

What are the four things we can be doing, according to the authors, that will continue to hold private agencies accountable for the services they are providing?

Your answer:

evaluate programs,

monitor quality and the provision of services,

develop performance contracts similar to what PA has done, and

be willing to cancel contracts and reissue them to higher performers
